ONE interesting fact which the Popo Oxe interesting fact which the Popo-cratic National Convention and Com-mitted can present to the public in a retrospect of the four years since Mr. BRYAN's nomination is the latest data with reference to the condition of our Treasury. In the Convention and cam-paign of 1896, Popocrats insisted that we must have "more money," and that the only way to get this was through the free and unlimited coin-age of silver. The people rejected age of silver. The people rejected free and unlimited coinage of silver, but they have obtained "more money," and that of the very best sort. When Mr. Bryan was nominated in July, 1896, the amount of gold and gold certificates in circulation was \$498,000,000; or February 1st, 1890, it was \$804,000,000, while the total money in circulation on July 1st, 1896, as \$1,509,000,000, and on February 1st, 1900, it was \$2,003,000,-000 to our money in circulation, and over \$800,000,000 of it in gold, without the free and unlimited coinage of silver. No Nation in the world has made the increase in its money in circulation since 1896 that the United States has. Yet Mr. Bryax has just been prancing through the East telling the people that Free-silver must form an important feature of the campaign of his Democratic party in 1900. of silver. The people rejected

Ir seems that some rather interesting politics are being played at the Capitol these days. For the first time in over six years the Senate of the United States has a clear Republican majority. It was natural to suppose the profession of the Republican rather of the State being in no manner a Civil Service body, and that the Democrats, who held the majority of the offices, would be replaced by Republicans. The offices of Secretary and Sergeant-at-Arms are important and high-salaried positions and carry with them a number of other good offices ranging from \$2,500 per annum down. These places are now filled by good loyal Democrats, some of them of the Free-silver stripe, and ultra partisan.

number, quite a number of prominent Republican Senators—and the publi-cation of their names would come as a considerable surprise to their con-stituents—who think that, in view of the "efficiency" of the present Demo-cratic officials, it would be the best action. It matters not that when the Democrats came into power in 1893, they made, within thirty days, as shown by the official printed report of the Secretary of the Senate, practically a "dean sweep" of Republicans and that a very large proportion of these men were old soldiers, one-legged or one armed, who had been given posi-tions as messengers and door-keepers ecause of their disabilities incurred in fighting for the Union.

Just what is the object of these Re-

Just what is the object of these Re-publican Senators who desire the re-tention of Free-silver Democratic offi-cials it is difficult to understand, but they are hearing from day to day, in no uncertain tones, what their sup-porters at home think of such action.

INDIAN UPRISING.

Austin, Tex, March 10.—Advices from Ortiz, state of Sonora, Mexico, are that the Indians have continued their depredations to an alarming extent during the past week, having ransacked a great stretch of territory and done no little damage to several hamlets along the road between do not seem to be able to cope with the situation at the present writing, and it is manifest that more men will be needed to effectually suppress the uprising.

The Indians, who were all banded together about ten days ago for the purpose, presumably, of making an attack upon the main forces of the purpose, presumably, of making an attack upon the main forces of the persed into roving hands of some 200 or 300 each, and in this manner they are covering a great range of territory and doing more damage in the way of marading movements. It is evident, however, that they are in constant communication with one another both by "runners" and by a standard of the standard of the standard of the standard of some of the Indians.

Owing to the unsettled and extremely wild country in this neighborhood, however, the Mexican troops do not dare venture to the location in the night, and, for that manifest of the road during the day, owing to the acres of prickly pear and chaparrel through which they have to wade and which seriously interfere with their progress. The Mexican troops are very suspicious of the Indians laying traps to massacre the entire force.

Par Been Recovered From the Red Ash Colliery.

Thurmond, W. Va., March 10.—The total number of those taken from the Red Ash coal mine, where the terrific explosion took place Tuesday moraling, is thirty-one. Of these, Win. Robinson, Elisha Bruce and a boy named Tom, all colored, are riggs and of the total number of the drift very soon after the explosion. The dead taken out up to this time are John Day, Wim. Day, Matt Quarles, Jas. Washington, Jas. Hackney, Sam Jackson. Chas. C. Stewart, Chas. Downey, Walter Demins, Petter Chappell and six others who were found in such a state of decomposition that they have not yet been identified. This makes the total number of dead taken out 28, those who will thought to be in the mine about 20.

The body taken out supposed to be that of Chas. Downey was found to be C. Stewart, Downey's body being recovered later. Six others were found, but were so badly decomposed that they have not yet been recognized. The bodies now being found in the mine very disagreeatile and renders necessary the use of large quantities of carboile acid, ammonia and other disinfectants. Dr. Montgomey, the coroner, and C. W.
